

Secure Storage Containers

Ravenstock MSG Ltd offer excellent value for money for all your storage requirements.

Steel Storage Container Sizes

Standard containers are **8' wide and 8'6 high** and are available in varying lengths:

10ft, 20ft, 30ft and 40ft.

Other sizes and configurations are also available.

Our secure steel storage containers are available for **Hire or Sale, New or Used.**

- Full Steel Construction - ensuring safety and security.
- All containers have hardwood flooring and swing cargo doors.
- Racking or shelving can also be installed to provide more usable space.
- Lighting, heating and power points can also be installed.
- Modifications can be made to provide a file storing facility.

Modifications

We can supply the following options to suit your specific requirements:

- Ramps to ease access
- Electrics
- Heating and Lighting
- Shelving and Racking
- Additional ventilation
- Condensation Control
- Bunding to prevent spillage for chemicals

Security

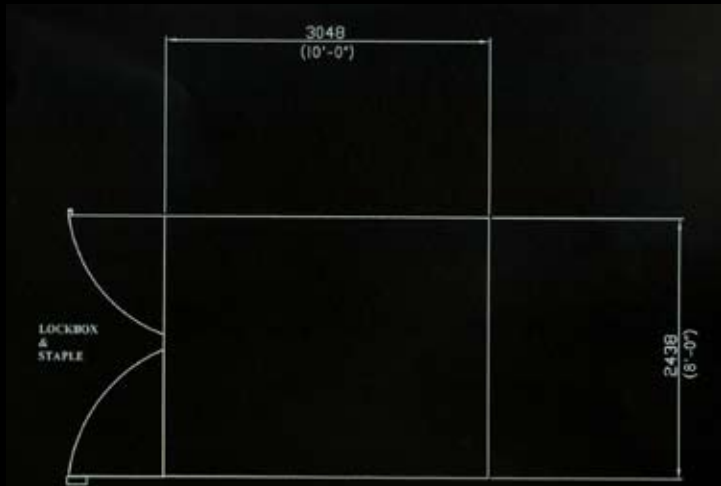

Vandalism is a fact of life so it is reassuring to know our lock box system incorporates a hidden locking system that hinders any tampering with your containers contents.

Our Lock Box system is standard on all our rented storage units and can also be purchased on both second hand or new units.
