

Secure On Site Self Storage

A selection of our sites throughout the UK and Ireland have an on site self-storage facility. This enables you to store equipment securely without having to lose valuable space.

Self-Storage Unit Sizes

Standard self-storage units are **8' wide and 8'6 high** and are available in either **10'** or **20'** lengths.

Self-Storage units are available on weekly contracts at very competitive rates. Whether for business or private use, self storage can help with...

- Stock Problems
- Archive Storage
- Moving Home

... we offer facilities that cater for your precise needs. We offer business hour access to our various nationwide self storage locations.

With your own allocated self storage unit on ground level, you simply park directly outside and load or unload depending on your needs.

Ravenstock MSG Ltd can also offer open storage. Common items currently stored include customers own containers/cabins & boats.

Security systems have been installed to give peace of mind to all of our self storage customers.

All contents should be insured by your own independent insurance company.

For health and safety reasons, no hazardous chemicals can be stored within our self storage units - e.g. gas bottles, aerosols, paints, flammable goods. Illegal contraband will not be accepted within our self storage facilities.

Either long or short term self storage hire periods are available at very competitive rates - with our low cost, high quality service.
